Catholic School Parents Australia—Tool Kit

Catholic School Parents Australia continues to develop the national toolkit for parents and educators that includes Australian research,

resources, case studies and helpful information to support students in their learning and wellbeing. More recently, CSPA launched a report following a nationwide survey in 2022 on parent perspective on student wellbeing. Click on the link below to download the report. CSPA is now embarking on further research and exploration into the importance of effective communication between home and school to support student learning and wellbeing.

Tasmanian Catholic Schools Parents Council—New President

Charlotte Geeves

I'm a busy working mum of a 13-year-old son in grade 8 at Mackillop Catholic College and a step mum to a 21-year-old in his final year at Uni. I initially joined the TCSPA in 2022 as parent rep for Mackillop and then was offered the opportunity to join the exec team and the role of president. I myself, attended a Catholic school for most of my schooling and through my children I have continued my engagement with Catholic Education. I have enjoyed the past 12 months in this role and look forward to working with the executive team and the council members to continue to represent the parent voice across a range of topics and platforms.

Collinsvale—Glenorchy

Gentle uphill walk through a ferny-covered forest to a creek-side picnic area

Can you spot some gigantic trees and teeny birds? The trail weaves through some stands of mountain ash, a species known to grow into the tallest flowering plants in the world. Keep an ear out for chittering from the canopy, you may just spot black-headed honeyeaters bouncing upside-down looking for insects.

This trail has potential to connect through to Collin's Cap and Bonnet, or further afield to the summit of kunanyi / Mount Wellington.
